

What will they do?

Your child will learn about science in a fun way through activities involving...

Robots

Chemistry

Bugs

Engineering

Solving Mysteries

Slime

Electricity

And much, much more!

**Have a great
summer and
we hope to
see you on
July 10th!**

1st-5th Grade

Science

Day Camp

July 10-13

2018!

**Lasers, Gears,
Gizmos, Geysers,
Fossils, and Robots!**

What is Summer Science Camp all about?

This 5th annual 1st-5th grade camp is a convenient and affordable option to provide your children with an exciting, educational, and well supervised science adventure! If you find your child struggling with science in the classroom (or loving it!) then this is the perfect opportunity for them to explore the fun of science!

What will they learn?

This four day program will introduce your children to the fascinating world of **science, technology, engineering, and math** through hands on, engaging experiments and activities.

How much will it cost?

We are pleased to be able to provide this camp to you

for only \$10!

This cost will help cover the T-shirt we will be providing. We can also provide participants with income based scholarships as well. Just contact us if you are interested.

The issue is not to teach [a child] the sciences, but to give him the taste for loving them.

— Jean-Jacques Rousseau

What else do I need to know?

Age Requirement: Any children who are entering **1st through 5th grade (2018-2019 school year)**
