

# PROJECT BOX

# CODE & GO MICE

As the STEM field grows, coding has become a very valuable skill. Code & Go Robot Mice are a simple and fun way to introduce kids to programming. These mice are given a set of instructions with the buttons on their back. They then use the code to navigate through mazes where the goal is to get the cheese!

## MATERIALS INCLUDE:

**6 Code & Go Robot Mouse student kits** that include:

- A robot mouse
- Cheese
- Grid pieces
- Tunnels
- Coding cards
- Challenge cards

## AND MORE!

## CODING

**Grade levels:**

K - 6 (adjustable)

**Activity time:**

1 - 2 hours +

**Mess level:** 🌟
