

PROJECT BOX

LASERS & LIGHT

Every kid knows that lasers are cool, but do they know how they work or how they can be used? The Lasers & Light box lets kids see a real laser and learn about the properties of light through exciting demonstrations. The Laser Mazes are great hands-on challenges that teach reflection of light and require abstract thought.

MATERIALS INCLUDE:

- 4 Laser Mazes
- 4 Laser Maze Juniors
- 2 lasers
- Laser demonstration materials, including popping balloons, lighting matches, and light traveling through water
- 3 sets of prisms for bending and reflecting light

AND MORE!

PHYSICS

Grade levels:

K - 6 (adjustable)

Activity time:

30 min - 1 hour +

Mess level: ✨ ✨
